Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach an apparatus for applying a desired voltage at a first node, said first node being connected to a load impedance, said apparatus comprising: a voltage source coupled to-said first node, said voltage source generating said desired voltage; and a current source also coupled to said first node, wherein said current source supplies an amount of current that would be-approximately drawn by said load impedance by said desired voltage being applied at said first node, wherein said load impedance is characterized by a high load such that said current source enables said voltage source to be coupled to said first node without a buffer between said voltage source and said first node.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
